

Curriculum Vitae
ZHENHUAN SUN

Ph.D. Candidate
Department of Electrical and Computer Engineering
University of Toronto
Email: zhsun@ece.utoronto.ca
Website: <https://zhenhuansun.github.io>

Education

Ph.D. in Electrical and Computer Engineering.

University of Toronto, Sept. 2023 – Present.
Supervisor: Prof. Shahrokh Valaee.

M.A.Sc. in Electrical and Computer Engineering.

University of Waterloo, Sept. 2021 – Sept. 2023.
Supervisor: Prof. Weihua Zhuang.

B.Eng. in Computer Engineering, *summa cum laude*.

McMaster University, Sept. 2017 – June 2021.

Research Interests

Learning Mechanics, Machine Unlearning, Continual Learning.

I am interested in understanding how machine learning models retain, update, and forget information contained in datasets, how they use this information to make predictions, and in applying this understanding to design AI systems that can efficiently remove the influence of unwanted data while continually learning from new data.

Awards and Honors

Jon W. Mark Graduate Scholarship in Communication, University of Waterloo (2022); Outstanding Achievement Award for Capstone Project, McMaster University (2021); Deans' Honour List, McMaster University (2017 - 2021); Engineering Entrance Scholarship, McMaster University (2017).

Publications

Theses

- [1] Zhenhuan Sun. “Online Vehicle Subgroup Scheduling for Feature-Level Cooperative Classification”. Master’s Thesis. University of Waterloo, 2023.

Preprints

- [2] Zhenhuan Sun and Shahrokh Valaee. *A Dual Representation of Influence Functions for Linearizable Models*. 2026. arXiv: 2605.11239 [cs.LG].

Teaching

Teaching Assistant for CSCC11: Introduction to Machine Learning and Data Mining.

University of Toronto Scarborough.
Fall 2024, Winter 2025, Fall 2025, Winter 2026, Fall 2026.
